

## WRITING YOUR ARTICLE ~ SYSTEM TEMPLATE ~

If you find it hard to get those articles written, an outline breaks it up into manageable chunks and makes sure that you get it done with minimal effort. Complete the Article Outline then insert this text into the Body of your article.

### ARTICLE OUTLINE TEMPLATE

#### **Subheadings –**

- a) Write out around 2-4 subheadings for points you want to include in your article.
- b) Without thinking too much, make short notes under each subheading about what you could include.
- c) This will serve as the 'Body' of your article (see 'Article Templates')
